Subject Index

Adenovirus, simian adenovirus 7 infectious DNA-protein complex 54
Adenovirus type 12, transformation characteristics of temperature-sensitive mutants 170
Antibody
- hepatitis B subtypes in chimpanzees 378
- rubella IgG, detection and virus diagnosis 359
- rubella IgM, detection 353

Antigenic differences, herpesvirus type 2 isolates 1
Antigen (nuclear), Epstein-Barr virus-determined 232
Antiviral activity of interferon 369
Antiviral activity of rifamycin SV, inhibition of murine leukemia virus replication 84
Antiviral agents, inhibition of poliovirus RNA replication 281
Antiviral antibiotics, inhibition of focus formation by sarcoma-inducing oncornaviruses with rifamycins 63
'A-type' intracellular virus particles, endogenous oncornavirus in guinea pigs 319

Bacteriophage taxonomy 201
Bacteriophage T4 DNA, study of redundancy by renaturation kinetics 277
Bacteriophage T7 DNA, study of redundancy by renaturation kinetics 277
BAMMQ–2,3-bis-(acetylmercaptomethyl)-quinoxaline, inhibition of poliovirus RNA replication 281
Biophysical properties, hepatitis B antigen 129
Bluetongue virus, comparison of capsid polypeptides of various serotypes 47
Budding of frog virus 3, study by immunological and cytochemical methods in electron microscopy 305

Capsid polypeptides, bluetongue virus serotypes 47
Cell-growth inhibition by interferon 369
Central nervous system, street rabies virus infection of muscle 256
Classification,
- International Committee on Taxonomy of Viruses Study Group report on Papovaviridae 106
- present state of phage taxonomy 201
- vertebrate viruses 193

Complementation test, SV40 temperature-sensitive mutants 245
Coxsackievirus B5, variation in isolates and relation to swine vesicular disease virus 125
Cross-protection and viral subtypes in hepatitis B virus infections 378
'C-type' extracellular virus particles, endogenous oncornavirus in guinea pigs 319
C-type oncornavirus, guinea pig 319
C-type RNA virus (avian): reticuloendotheliosis virus 342
C-type viral antigen expression, relationship to malignant properties of SV40-transformed mouse cells 269
Cytochemical and immunological methods in electron microscopic study of frog virus 3 budding 305

Defective reovirus particles 36
Detection of fluorescent stained IgM 353
Diagnosis of rubella, demonstration of IgG antibodies by sucrose gradient centri-

Subject Index

Adenovirus, simian adenovirus 7 infectious DNA-protein complex 54
Adenovirus type 12, transformation characteristics of temperature-sensitive mutants 170
Antibody

Bacteriophage T7 DNA, study of redundancy by renaturation kinetics 277
BAMMQ–2,3-bis-(acetylmercaptomethyl)-quinoxaline, inhibition of poliovirus RNA replication 281
Biophysical properties, hepatitis B antigen 129
Bluetongue virus, comparison of capsid polypeptides of various serotypes 47
Budding of frog virus 3, study by immunological and cytochemical methods in electron microscopy 305

Capsid polypeptides, bluetongue virus serotypes 47
Cell-growth inhibition by interferon 369
Central nervous system, street rabies virus infection of muscle 256
Classification,
- International Committee on Taxonomy of Viruses Study Group report on Papovaviridae 106
- present state of phage taxonomy 201
- vertebrate viruses 193

Complementation test, SV40 temperature-sensitive mutants 245
Coxsackievirus B5, variation in isolates and relation to swine vesicular disease virus 125
Cross-protection and viral subtypes in hepatitis B virus infections 378
'C-type' extracellular virus particles, endogenous oncornavirus in guinea pigs 319
C-type oncornavirus, guinea pig 319
C-type RNA virus (avian): reticuloendotheliosis virus 342
C-type viral antigen expression, relationship to malignant properties of SV40-transformed mouse cells 269
Cytochemical and immunological methods in electron microscopic study of frog virus 3 budding 305

Defective reovirus particles 36
Detection of fluorescent stained IgM 353
Diagnosis of rubella, demonstration of IgG antibodies by sucrose gradient centri-

fugation and indirect fluorescent antibody staining 359
DNA,
- bacteriophage T4 and T7, study of redundancy by renaturation kinetics 277
DNA polymerase activity of oncornaviruses, antiviral antibiotics 63
DNA polymerase interconversion, Rauscher leukemia virus 332
DNA-protein complex, simian adenovirus 7 54

Electron microscopic study of influenza virus 121
Electron microscopy, immunological and cytochemical methods for study of frog virus 3 budding 305
Electrophoretic profiles of human interferon 369
Endogenous oncornavirus, prevalence in guinea pigs 319
Epstein-Barr virus genome, biological differences between EBV preparations 232
Epstein-Barr virus, nuclear antigen 232

Fluorescent staining, detection of rubella IgM 353
Fluorescent staining (indirect) and sucrose density gradient centrifugation, rubella diagnosis 359
Fractionation of hepatitis B antigen 129
Frog virus 3 budding, study by immunological and cytochemical methods in electron microscopy 305

Genome RNA segments, reovirus 36
Gross murine leukemia virus,
- inhibition of replication by rifamycin SV 84
- virion and non-virion membrane antigens 292

Hemagglutination inhibition rubella titers, clarification of ambiguous readings 359
Hepatitis B antigen, properties of morphological forms 129
Hepatitis B virus infection, viral subtypes and cross-protection 378
Herpes simplex virus, RNA polymerase activity and inhibition 147
Herpes simplex virus (HSV) type 2, growth of temperature-sensitive mutants at the nonpermissive temperature in cells transformed by HSV-2 162
Herpesviruses isolated from non-human primates, a compendium 175
Herpesvirus type 2, antigenic differences of isolates 1
Human lymphoblastoid cell lines, infection with biologically different preparations of Epstein-Barr virus 232
Human papilloma virus protein 220

Immune responses in chimpanzees to hepatitis B virus subtypes 378
Immunofluorescence and sucrose density gradient centrifugation, rubella diagnosis 359
Immunological and cytochemical methods in electron microscopic study of frog virus 3 budding 305
Infectious DNA-protein complex, simian adenovirus 7 54
Influenza virus,
- electron microscopic study of nuclear inclusions 121
- virion transcriptase activity 141
Inhibition of murine leukemia virus replication by rifamycin SV 84
Inhibition of poliovirus RNA replication 281
Inhibition of RNA synthesis, herpes simplex virus 147
Insect virus,
Mosquito iridescent virus, comparison of proteins of 'R' and 'T' strains 97
Interconversion of molecular size of DNA polymerase from Rauscher leukemia virus 332
Interferon (human) in heterologous cells, electrophoretic profiles and activities 369
International Committee on Nomenclature

of Viruses (see International Committee on Taxonomy of Viruses)
International Committee on the Taxonomy of Viruses announcements: Name change and schedule, 1975 199
International Committee on Taxonomy of Viruses Study Group report on Papovaviridae 106
International Committee on Taxonomy of Viruses, Vertebrate Virus Subcommittee: approved report on family and generic names for vertebrate viruses 193
Isoelectric points of hepatitis B antigen 129
Isoelectric points of papovaviruses 220

Kinetics (renaturation) of bacteriophage T4 and T7 DNA 277

Leukemia (murine) membrane antigens, virion and non-virion 292
Lymphoblastoid cell lines, infection with biologically different preparations of Epstein-Barr virus 232

Malignant properties of SV40-transformed cells, relationship to C-type viral antigen expression 269
Membrane antigens, murine leukemia virus 292
Molecular size, interconversion of DNA polymerase from Rauscher leukemia virus 332
Morphology, bacteriophage taxonomy 201
Mosquito iridescent virus, comparison of proteins of 'R' and 'T' strains 97
Murine leukemia virus gs antigen and malignant properties of SV40-transformed cells 269
Murine leukemia virus,
- inhibition of replication by rifamycin SV 84
- virion and non-virion membrane antigens 292

Myotropic infection, street rabies virus 256

Neurotropic infection, street rabies virus 256
Nomenclature,
- International Committee on Taxonomy of Viruses Study Group report on Papovaviridae 106
- vertebrate viruses 193

Non-human primate herpesviruses, a compendium 175
Non-virion and virion murine leukemia membrane antigens 292
Nuclear antigen, Epstein-Barr virus-determined 232
Nucleic acids, bacteriophages 201

Oncogenicity in hamsters, herpesvirus type 2 isolates 1
Oncornavirus (endogenous), prevalence in guinea pigs 319
Oncornavirus polymerase, antiviral antibiotics 63
Orbivirus, comparison of capsid polypeptides of bluetongue virus serotypes 47

Papillomavirus, International Committee on Taxonomy of Viruses Study Group report on Papovaviridae 106
Papilloma virus proteins 220
Papovaviridae Study Group report, International Committee on Taxonomy of Viruses (formerly International Committee on Nomenclature of Viruses) 106
Papovavirus structural polypeptides, comparison of human and rabbit papilloma viruses with SV40 220
Phage taxonomy 201
Phosphate, effect on infection of tobacco protoplasts by tobacco rattle virus 382
Plant virus,
Tobacco rattle virus, effect of phosphate on infected tobacco protoplasts 382
Poliovirus RNA replication, a new inhibitor 281
Polyomavirus, International Committee on Taxonomy of Viruses Study Group report on Papovaviridae 106
Polypeptides (capsid) of bluetongue virus serotypes 47

Polypeptides of hepatitis B antigen 129
Poxviridae,
- family and generic names 193
- taxonomy 193
Primate (non-human) herpesviruses, a compendium 175
Protein analysis, mosquito iridescent virus strains 97
Protoplasts infected by tobacco rattle virus, effect of phosphate 382

Quinoxaline derivative (BAMMQ), inhibition of poliovirus RNA replication 281

Rabbit papilloma virus protein 220
Rabies, street virus infection in muscle 256
Rauscher leukemia virus, interconversion of molecular size of the DNA polymerase 332
Renaturation kinetics of bacteriophage T4 and T7 DNA 277
Reoviridae,
- comparison of capsid polypeptides of bluetongue virus serotypes 47
- family and generic names 193
- taxonomy 193
Reovirus,
- genome segments 36
- temperature-sensitive mutants 36
- transcriptase activation 15
- uncoating 15
Reproduction and virulence of influenza virus, role of transcriptase activity 141
Reticuloendotheliosis virus, isolation and characterization of transformed bone marrow cells 342
Rifamycin antibiotics, inhibition of focus formation by sarcoma-inducing oncornaviruses with rifamycins 63
Rifamycin SV, inhibition of murine leukemia virus replication 84
RNA genome segments, reovirus 36
RNA, inhibition of poliovirus replication and synthesis *in vitro* 281
RNA polymerase activity and inhibition, herpesvirus-infected cells 147
Rubella diagnosis, demonstration of IgG antibodies by sucrose gradient centrifugation and indirect fluorescent antibody staining 359
Rubella IgM, detection by fluorescent staining and sucrose gradient centrifugation 353

Serological specificity, bluetongue virus 47
Simian adenovirus 7 infectious DNA-protein complex 54
Spot complementation test for temperature-sensitive mutants of SV40 245
Strain differences, herpesvirus type 2 1
Subtypes and cross-protection, hepatitis B virus infections 378
Sucrose density gradient centrifugation and fluorescent antibody staining, rubella diagnosis 359
Sucrose gradient centrifugation detection of fluorescent stained IgM 353
SV40,
- comparison of structural polypeptides with those of human and rabbit papilloma virus 220
- relationship of acquisition of malignant properties of transformed cells to type C viral antigen expression 269
- spot complementation test for temperature-sensitive mutants 245
Swine vesicular disease virus, possible role of coxsackievirus B5 in its etiology 125

Taxonomy,
- bacteriophage 201
- vertebrate viruses 193
Temperature-sensitive mutants of adenovirus type 12, transformation characteristics 170
Temperature-sensitive mutants of herpes simplex virus (HSV) type 2, growth at the nonpermissive temperature in HSV-2 transformed cells 162
Temperature-sensitive mutants of reovirus 36
Temperature-sensitive mutants of SV40, spot complementation test 245

Third International Congress for Virology: Announcement 200
Tobacco rattle virus, effect of phosphate on infected tobacco protoplasts 382
Togaviridae,
- family and generic names 193
- taxonomy 193
Transcriptase activation, reovirus 15
Transcriptase activity, influenza virus 141
Transformation characteristics of temperature-sensitive mutants of type 12 adenovirus 170
Transformed bone marrow cells, reticuloendotheliosis virus 342
Vertebrate viruses, taxonomy 193
Viral pathogenesis, street rabies virus 256
Viral proteins, papilloma virus 220
Viral RNA, poliovirus, inhibition of replication and synthesis *in vitro* 281
Virion and non-virion murine leukemia membrane antigens 292
Virus characterization, reticuloendotheliosis virus transformed bone marrow cells 342
Virus-specific IgM antibodies, demonstration 353

Structure of Viruses	A. F. HOWATSON (Section Editor), Canada; J. D. ALMEIDA, UK; T. F. ANDERSON, USA; W. BERNHARD, France; S. DALES, USA; R. W. HORNE, UK; F. A. MURPHY, USA; M. MUSSGAY, Germany; E. NORRBY, Sweden; G. RUTTKAY-NEDECKY, Czechoslovakia; J. SKEHEL, UK; D. W. VERWOERD, S. Africa
Plant Virology	A. J. GIBBS (Section Editor), Australia; J. B. BANCROFT, UK; R. BERCKS, Germany; H. FRAENKEL-CONRAT, USA; R. W. FULTON, USA; B. D. HARRISON, UK; Z. HIDAKA, Japan; L. HIRTH, France; R. J. SHEPHERD, USA; V. VALENTA, Czechoslovakia
Invertebrate Virology	T. W. TINSLEY (Section Editor), UK; K. AIZAWA, Japan; L. BAILEY, UK; E. KURSTAK, Canada; J. F. LONGWORTH, New Zealand; K. MARAMOROSCH, USA; C. REINGANUM, Australia; D. W. ROBERTS, USA; C. VAGO, France; J. L. VAUGHN, USA
Bacteriophage	N. D. ZINDER (Section Editor), USA; D. BOTSTEIN, USA; D. E. BRADLEY, Canada; A. EISENSTARK, USA; F. A. EISERLING, USA; W. FIERS, Belgium; R. M. FRANKLIN, Switzerland; D. M. GOLDFARB, USSR; R. HASELKORN, USA; P. H. HOFSCHNEIDER, Germany; M. SCHWEIGER, Germany; E. R. SIGNER, USA
Virus-Cell Relationship	G. KLEIN (Section Editor), Sweden; R. BABLANIAN, USA; F. BROWN, UK; R. COMPANS, USA; A. GRANOFF, USA; I. GRESSER, France; W. G. LAVER, Australia; L. KJELLÉN, Sweden; T. MERIGAN, USA; L. MONTAGNIER, France; B. MOSS, USA; W. RUSSELL, UK; R. SHEININ, Canada; H. ZUR HAUSEN, Germany
Replication of Animal Viruses	H. S. GINSBERG (Section Editor), USA; V. I. AGOL, USSR; Y. BECKER, Israel; M. GIRARD, France; A. GRAHAM, Canada; A. S. HUANG, USA; W. K. JOKLIK, USA; A. S. KAPLAN, USA; D. W. KINGSBURY, USA; A. S. KOCH, Hungary; B. R. MCAUSLAN, USA; L. PHILIPSON, Sweden; B. ROIZMAN, USA; R. ROTT, GERMANY; J. VINOGRAD, USA; P. WILDY, UK; V. M. ZHDANOV, USSR

Genetics	P.D. Cooper (Section Editor), Australia; Y. Ghendon, USSR; H. Hanafusa, USA; E.D. Kilbourne, USA; S. Kit, USA; C.R. Pringle, UK; J.F. Sambrook, USA; J.H. Subak-Sharpe, UK; P.K. Vogt, USA; J. Zavada, Czechoslovakia
Epidemiology	E.H. Lennette (Section Editor), USA; F.L. Black, USA; D. Blaskovic, Czechoslovakia; R.M. Chanock, USA; F. Dekking, Netherlands; R.W. Emmons, USA; S. Gaidamovich, USSR; N. Goldblum, Israel; K. Johnson, Panama; J.A.R. Miles, New Zealand; N. Nathanson, UK; W.E. Rawls, Canada; L. Rosen, USA; W.F. Scherer, USA; I. Tagaya, Japan; J. van der Veen, Netherlands; H. von Magnus, Denmark; H.A. Wenner, USA
Oncology	F. Rapp (Section Editor), USA; H. Bauer, Germany; M. Benyesh-Melnick, USA; M. Green, USA; Y. Ito, Japan; I.A. Macpherson, UK; W.P. Rowe, USA; S. Spiegelman, USA; J. Svoboda, Czechoslovakia; H.M. Temin, USA; G. Todaro, USA; J. van der Noordaa, Netherlands; P. Vigier, France
Immunology	N. Oker-Blom (Section Editor), Finland; A.C. Allison, UK; F. Deinhardt, USA; S. Fazekas de St. Groth, Australia; D.T. Karzon, USA; G. Le Bouvier, USA; M.B.A. Oldstone, USA; A.J. Rhodes, Canada; N.J. Schmidt, USA; V. Vonka, Czechoslovakia
Classification and Nomenclature	F. Fenner (Section Editor), Australia; A. Eisenstark, USA; A.J. Gibbs, Australia; F.A. Murphy, USA; R.J. Shepherd, USA; C. Vago, France; P. Wildy, UK

Contents Vol. 3

No. 1–2

SETH, P.; RAWLS, W.E.; DUFF, R.; RAPP, F.; ADAM, E., and MELNICK, J.L. (Hamilton, Ont.): Antigenic Differences between Isolates of Herpesvirus Type 2 1

BORSA, J.; LONG, D.G.; COPPS, T.P.; SARGENT, M.D., and CHAPMAN, J.D. (Pinawa, Man.): Reovirus Transcriptase Activation *in vitro:* Further Studies on the Facilitation Phenomenon 15

SCHUERCH, A.R.; MATSUHISA, T., and JOKLIK, W.K. (Durham, N.C.): Temperature-Sensitive Mutants of Reovirus. VI. Mutant ts 447 and ts 556 Particles that Lack either One or Two Genome RNA Segments 36

DE VILLIERS, E.-M. (Onderstepoort): Comparison of the Capsid Polypeptides of Various Bluetongue Virus Serotypes 47

TÁLAS, M. and BUTEL, J.S. (Houston, Tex.): Infectious DNA-Protein Complex from Cells Productively Infected with Simian Adenovirus SA7 54

O'CONNOR, T.E.; SCHIOP-STANSLY, P.; SETHI, V.S.; HADIDI, A., and OKANO, P. (Bethesda, Md.): Antiviral Antibiotics: Inhibition of Focus-Formation in Human or Mouse Cell Cultures by Sarcoma-Inducing Oncornaviruses with Rifamycins . 63

SHANNON, W.M.; WESTBROOK, L., and SCHABEL, F.M., jr. (Birmingham, Ala.): Inhibition of Gross Murine Leukemia Virus Replication by Rifamycin SV and Certain of Its Derivatives *in vitro* 84

WAGNER, G.W.; PASCHKE, J.D.; CAMPBELL, W.R., and WEBB, S.R. (West Lafayette, Ind.): Proteins of Two Strains of Mosquito Iridescent Virus 97

MELNICK, J.L.; ALLISON, A.C.; BUTEL, J.S.; ECKHART, W.; EDDY, B.E.; KIT, S.; LEVINE, A.J.; MILES, J.A.R.; PAGANO, J.S.; SACHS, L., and VONKA, V. (Houston, Tex.): *Papovaviridae* 106

Short Communications

ANISIMOVÁ, E.; TUČKOVÁ, E., and VONKA, V. (Prague): Penetration of Nuclear Inclusions into the Cytoplasm in Influenza-Virus-Infected Cells 121

BROWN, F. and WILD, F. (Pirbright, Surrey): Variation in the Coxsackievirus Type B5 and Its Possible Role in the Etiology of Swine Vesicular Disease 125

No. 3

CHAIREZ, R.; HOLLINGER, F.B.; MELNICK, J.L., and DREESMAN, G.R. (Houston, Tex.): Biophysical Properties of Purified Morphologic Forms of Hepatitis B Antigen 129

GHENDON, Y. and PORUBEL, L. (Moscow): Virion Transcriptase Activity of Influenza Virus Isolates 141

SASAKI, Y.; SASAKI, R.; COHEN, G.H., and PIZER, L.I. (Philadelphia, Pa.): RNA Polymerase Activity and Inhibition in Herpesvirus-Infected Cells 147

Short Communications

KIMURA, S.; ESPARZA, J.; BENYESH-MELNICK, M., and SCHAFFER, P.A. (Houston, Tex.): Enhanced Replication of Temperature-Sensitive Mutants of Herpes Simplex Virus Type 2 (HSV-2) at the Nonpermissive Temperature in Cells Transformed by HSV-2 162

RUBENSTEIN, F.E. and GINSBERG, H.S. (Philadelphia, Pa.): Transformation Characteristics of Temperature-Sensitive Mutants of Type 12 Adenovirus 170

Compendium

BARAHONA, H.; MELENDEZ, L.V., and MELNICK, J.L. (Houston, Tex.): A Compendium of Herpesviruses Isolated from Non-Human Primates 175

ICTV Announcements

FENNER, F.; PEREIRA, H.G.; PORTERFIELD, J.S.; JOKLIK, W.K., and DOWNIE, A.W. (Canberra): Family and Generic Names for Viruses Approved by the International Committee on Taxonomy of Viruses, June 1974 193

International Committee on Taxonomy of Viruses 199

Announcement

Third International Congress for Virology 200

No. 4

ACKERMANN, H.-W. and EISENSTARK, A. (Quebec): The Present State of Phage Taxonomy 201

SPIRA, G.; ESTES, M.K.; DREESMAN, G.R.; BUTEL, J.S., and RAWLS, W.E. (Houston, Tex.): Papovavirus Structural Polypeptides: Comparison of Human and Rabbit Papilloma Viruses with Simian Virus 40 220

KLEIN, G.; SUGDEN, B.; LEIBOLD, W., and MENEZES, J. (Stockholm): Infection of EBV-Genome-Negative and -Positive Human Lymphoblastoid Cell Lines with Biologically Different Preparations of EBV (With 1 color plate) 232

TEVETHIA, M.J.; RIPPER, L.W., and TEVETHIA, S.S. (Boston, Mass.): A Simple Qualitative Spot Complementation Test for Temperature-Sensitive Mutants of SV40. 245
